Excerpt: .decrease may reflect the more thorough safety organization effected in some of these plants in 1912. The fact that the frequency rate shows no decline is certainly due to the more complete reporting of minor accidents in the later years. A striking method of showing the effect of a good safety system in accident prevention is to compare the accident rates in plants having, with those in plants not having, well-organized systems. This is done for three important groups of plants. In every case the plants not having a good safety organization show accident frequency rates three or four times as high as those having a well-developed system. The report presents a very careful study of the very important subject of accident causes. For the industry as a whole falling objects stands out as the most frequent cause of accidents, the frequency rate being...
