Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Familiar Introduction to the Study of Polarized Light: With a Description of and Instructions for Using, the Table and Hydro-Oxygen Polariscope and Microscope Messrs. Smith Beck having requested me to oblige them with a description of, and instructions for using, my Table and Hydro-oxygen Polariscope and Microscope, and several friends possessing achromatic microscopes fitted with the polarizing apparatus having lamented the difficulty of comprehending the laws of the phenomena thereby exhibited, I have endeavoured to render the use of these instruments more interesting, by presenting, in a concise and familiar manner, such introductory information as may smooth the threshold of a subject confessedly abstruse, and lead to the study of works of far higher pretensions and deeper research. I have briefly noticed those facts which have gradually led to the very general adoption of a theory concerning the nature of light differing in some important respects from that advanced by Sir Isaac Newton; and I have endeavoured to shew that his successors, whilst they have adopted another theory, have yet done little more than given new names to old facts, leaving his discoveries and his calculations still to form the firm basis of the science. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
